 Ford Fog Lamp

UNIT PACKAGE: 1

21058

(5C3Z-13N021-AA)

H13 Bulb
 Ford Headlight

UNIT PACKAGE: 1

Welding Blanket

21083

A 6 ft. x 6 ft. lightweight, soft and flexible welding blanket for draping over equipment or floor surfaces in welding areas, or as a vertical shield to protect from the spray of sparks, spatter and slag. Our fire and heat resistant welding blankets are made with a carbon fiber fabric that was developed from NASA technologies. The carbon fibers can withstand temperatures of 1800° F from contact with hot metal, weld spatter or the welding flame for short durations but should not be exposed to temperatures of 200° F for extended periods as the carbon fibers will break down. The blankets are easy to clean; just shake, vacuum or use compressed air to blow metal particles out.
