

FASTTRACK

COST RECOVERY SYSTEM

Powered by Auveco

WHAT IS FASTTRACK

FasTrack is a web-based cost recovery system. The system generates supplemental invoices that can be turned into insurance companies for reimbursement on clips, fasteners, & shop items used on every repair.

CCC INTEGRATION 3 SIMPLE STEPS

1. Choose the RO that came over from CCC Secure Share from the FasTrack dashboard
2. Add parts used on that repair to the RO to create the supplemental invoice
3. Send the completed draft invoice back to CCC electronically

KEY FEATURES

INVOICE CREATION

- Manual entry
- Wireless scanner
- Free IOS/Android app

SHOP ITEMS

- Add shop items such as sandpaper, seam sealer, etc to be invoiced
- Easily add items via excel

REPAIR KITS

- Use Auveco's pre-made kits or create your own
- Repair specific kits
- Use Kit ID to add all line items to an invoice

LABELING

- Create "On Demand" labels with barcodes for Auveco & shop items to be scanned
- Customize & create lid labels to be printed with Auveco item number, image, & barcodes
